

ILION Business Portal

Web sale control panel

INTRODUCTION

ILION Business Portal, It is the platform for online outlet sales monitoring, in real time, providing you with all the information you need at a single glance.

It enables multiple queries for stock replacements and monitoring in general.

It operates in combination with an agency transmitting the information to the central system.

ILION Business Portal can be customised for nearly any point of sale terminal on the market using an open database. This will provide you with a wealth of information without the need for major expenditure.

ADVANTAGES

ILION Business Portal makes use of the latest data acquisition and transmission technologies to ensure both availability and accuracy.

Sales can be queried by SKU, family or sales person and you can query staff bonuses and commissions. Your best selling products, your best selling outlets, the best sales person...

Its modular design enables query personalisation, if there is something else you need.

- Its flexible design enables connection with practically all the sales terminals on the market, not necessarily ILION
- Modular design easily enhanced with new functionalities

FEATURES

Main menu

- ↳ Detailed reports on: sales (units), sales (value), sales with bonus (value), sales vs discount, sales by article (units), sales by reference (value), sales by store (units), sales by store (value), sales by model (units), sales by model (value), sales by decoration (value), sales by family (value), sales by type (value), sales by business line
- ↳ Top Ten: Top ten stored (units), top stores (value), top 25 articles (units), top 25 returns (units), top line and scope, top States/regions, top area managers
- ↳ Top Ten Hours: sales distribution by hour (units), sales distribution by hour (value)
- ↳ Top Ten Sales persons (value)

- ↳ **Support menu** - Among other information, it shows store status, providing connectivity and band width available per store
