

Heimdal POS

Solutions for Point of Sale

INTRODUCTION

Heimdal POS includes a series of solutions designed to perform all necessary functions at the point of sale in a flexible and intuitive way.

COMPARATIVE

Based on ILION POS, Heimdal POS has developed three products designed to offer specific solutions to everyday and punctual multi-brand company problems:

- **Heimdal Pro POS.** POS terminal version of which it's item management, prices, merchandise, are made through a web portal. Data is synchronized with a central at opening and closing hours of the cash register schedule.
- **Heimdal Free POS** , in this version there is no central management module therefore all loaded data must be implemented by the POS.
- **Heimdal POS**, is the most basic version of all, with the same features as Heimdal POS, but with advertising and ticket sales included in the POS terminal.

HEIMDAL FREE POS
